

Electric Light Orchestra "Every Night"

Visit "[Every Night](#)" on MotoLyrics.com

I've got rocket for your parade
Heavy breathing for you made in the shade
I've got an itch that just won't quit
I see you wear the dress that just don't fit
I see you walking with that two bit boy
I see you laughing but I'm no toy

I know what you do every night, every night
I know what you do when you turn out the light
I see what you do every night, every night
And I want you to do it to me

You learned that jive on MTV
That mumbo jumbo just don't work on me
Slam bang, baby, ala kazaam
Don't disrespect me I'm a stand-up man
I see you laughing when you slam the door
I see you with him, I can't take any more

I know what you do every night, every night
I know what you do when you turn out the light
I see what you do every night, every night
And I want you to do it to me

Come to your senses, baby, don't hold out
Someday you'll want me, don't act so proud
We've got a mutual circumstance
Come on, hold on, give me a chance

I see you laughing when you slam the door
I see you with him, I can't take any more

I know what you do every night, every night
I know what you do when you turn out the light
I see what you do every night, every night
And I want you to do it to me

I know what you do every night, every night
I know what you do when you turn out the light
I see what you do every night, every night
And I want you to do it to me

I know what you do every night, every night
I know what you do when you turn out the light
I see what you do every night, every night
And I want you to do it to me
