Visit "[Hello](#)" on MotoLyrics.com

Hello, hello
It's great to see you once again
It's been so long, we were such friends
Long time ago

Hello, hello
Your smiling face, your warm embrace
We've been apart far too long
It felt so wrong

Nice to know, you're coming over
Nice to know, the wait is over

Hello, hello
Is that a smile on your face?
Here's a kiss, just in case
This one's for you

Hello, hello
It's great to see you once again
It's been so long, we were such friends
Long, long time ago
