[Styles]

How these cats ain't pleased and they never owned a thing  
Lisa, with the Visa, Mona thing  
Uptown's first lady, with the cheddar in the purse baby  
make you bounce 'till it hurts baby  
Jewels you can love and hold, don't confuse it  
Mona's only here to please you with the music  
Want here but you can't have her, we gon' riot if they  
try to grab her  
she's to young to be handled

[Sheek Luchion]

How I'd please you, if I the chance to boo  
Sixteen or not I only dream about romancin' you  
You see me with the LOX uptown on Yonkers blocks  
now I pay dough to see you blow it up in the spots  
Me and you boo, no champagne we be drinkin' Yoo-hoo  
take a trip to Grade A, and chill with the whole crew  
You know how Luch' do, spendin' ain't nothin'  
after we can take the LOX yacht on the Hudson

[Mona Lisa]

I see that look in your eyes, it's makin' me weak  
and every time that you smile, I can't even speak  
Don't want these feelings to change, they'll always be  
true  
I want forever with me and with you (Ooooh-ooooh)

Chorus:

Lovin' you is all that I do (All I can do)  
No matter the time, always on my mind  
Whatever you want, whatever you need  
This love is for you, I just wanna please, oh baby

[Mona Lisa]

How can I show you my love, just what I can do  
how can I prove you're the one, it's all about you  
So if it's holdin' you tight, or touchin' your hand  
just let me know 'cause your wish is my command

Bridge:

How can it be, why don't you see  
'Cause boy you should know you're a part of me, the  
heart of me  
No one, can take your place

Chorus (2X):

Bridge:

[Jadakiss]

You don't wanna come in contact, with the big things  
we hold

R & B, illmatic, sixteen year old

Jadakiss, and honeys wanna serve me grapes

'cause they see me in the GS with Jersey plates

But I'm never home, I'm like a flip phone on roam

me and Mona, tryin' to cop a brownstone

Daddy, everything I write be tight

all I need is the hype, to cop up the Vipe

Or the CV-R, with the loud pipe

comin' down 8th, liftin' it, get it right

Even though it's all about G's

all I wanna do is please, every now and then you get  
the keys

Come on now tell me how real do it get

you drivin' my whip with a learners permit

The same little chick from across the street

remember me, sittin' on the steps you used to sweep

You was singin' I was rappin'

no we both makin' it happen, and I hope you go

platinum

Outro: Mona

I'll give it all to you my baby

What ever you want baby, whatever you need baby
