I hear your voice close on the phone  
But I know you're far away  
I've waited so long to talk to you  
And now I can't find the words to say

So I sit and I listen to you  
Breathe on the open line  
I can almost taste your lips and touch your hair  
It's like intoxicating wine

I can almost see your face  
Through the miles and miles of space

I can feel the power of a million lights  
When I see your eyes burn bright  
I can feel the sparks of a million volts  
When you touch me through the night

I can feel the heat across a million miles  
When you voice comes through the line  
I can feel the power of a million lights  
Come through the satellite

I'll touch it to the satellite  
Tonight, I'll touch it to the satellite

Although these oceans hold us apart  
Where there's a will there's a way  
I'm going to reach across the miles of sea  
No matter what they say

So close your eyes and I'll be there  
There's magic in the sky tonight  
When you see the lightning flash around the world  
It's the power of a million lights

Until I see your face  
Through the miles and miles of space

I can feel the power of a million lights  
When I see your eyes burn bright  
I can feel the sparks of a million volts

When you touch me through the night

I can feel the heat across a million miles  
When your voice comes through the line  
I can feel the power of a million lights  
Come through the satellite

I'll touch it to the satellite  
Tonight, I'll touch it to the satellite

Somewhere over the atmosphere  
The signals are crossed, now you're not so clear  
The power is out and the lights are down  
My head is spinning round and round and round and  
round and round

You know I need you more tonight  
By the power of a million lights

I can feel the power of a million lights  
When I see your eyes burn bright  
I can feel the sparks of a million volts  
When you touch me through the night

I can feel the heat across a million miles  
When your voice comes through the line  
I can feel the power of a million lights  
Come through the satellite

Tonight, I'll touch it to the satellite  
Tonight, I'll touch it to the satellite  
Tonight, I'll touch it to the satellite
