I see the early glow, I hear you say hello  
I watch the shadows fall, I don't see you at all

It's a lie (I don't believe it's so), it's a lie

I see the autumn rain, falling on my window pane  
I hear you say goodbye, I see a tear in your eye

Chorus:

It's a lie (I don't believe it's so), it's a lie  
Our love couldn't go wrong, how could I know I was only  
dreaming  
And now, now that you're gone, I will go on really  
believing  
I take the fall

I see you slip away, into another day  
There's no-one else around, I watch the sun go down

chorus

(Instrumental break)

I take the fall

I see you in a dream, you turn and start to go  
I call to you once more, guess that I'm takin' the fall

chorus

Our love couldn't go wrong, how could I know I was only  
dreaming  
And now, now that you're gone, I will go on really  
believing  
I take the fall
