One day,I gotta get out of here,
I gotta make everything clear,
I gotta see you.

I know,the way that I feel is wrong.
But I gotta carry on,when you ain''t around.

I believe things are going wrong,
And the night goes on and on,
All your dreams have flown away,
And the sun wan't shine today

Chorus

The lights go down,
The lights go down,
The lights go down and there's no one around.

I know,you're waiting so close to me,
But how will you ever see,as time rolls away,
Lonely,but tryin' to be so proud,
And just as I turn around,the lights go down.

I belive things are going wrong,
And the night goes on and on,
All your dreams have flown away,
And the sun want shine today.

Chorus
