I feel cold, facing the darkness
The light's gone away
Deep in his castle, he said
All land'll be mine

There's one thing for sure
The triumph of shadow is near
Deep in his castle, they sang
We shall not rest until all will be thine

All land is mine
You can be sure
Don't dare me
The mighty one screamed

Smashed down the light
I will not rest till I'm king
Valinor's empty now
Allied the elves and men
They shall be damned

Rise of fall
A dark tale ends

Just wondering how
In the darkness
They found their way
To the right place

Children of the sun
Second kindred
We call their race
Treat them kindly

Born in the east, night fearer
(Are the)
They moved westwards
Towards the sunshine
(They are)
Morning breath like

Short's their life, dawn passes by

(Like)
When the day comes
The field was lost
(And)
Hope had passed away

The sun went down
Beyond the sea
Dark was the hour
But day shall come again

Smashed down the light
I will not rest till I'm king
Valinor's empty now
Allied the elves and men
They shall be damned

Clean my wounds
Wash away all fear
Let courage be mine
No one hears me crying

No song, no tale
Which contains all the grief
(But)
Renowned the deeds
And the victims of defeat

Sit down on your chair
And look out for your kin
With my eyes, you'll see
And with my ears, you'll hear

You troubled my day
And you've questioned my strength
(But)
Don't mess
With the master of fate

Smashed down the light
I will not rest till I'm king
Valinor's empty now
Allied the elves and men
They shall be damned

I smashed down the light
And dared Valinor
I smashed down the light
Revenge will be mine

Slowly marching on

Still we're marching on
