I am God, the only One
I will bring back freedom to your heart
You won't believe that blind can't see

No one else before me ever knew the way to paradise
For another bloody crime I shall return
I am your light on through the night

Why am I born, will I fail to rise again?
Another crucifixion for another holy war
Another holy war, another holy war
Another holy war, can't stop what's going on

Sooner or later you must understand
My words bring freedom and rescue for man
What else to call me your Messiah

Oh, I wish there could be another way
[Incomprehensible]
Cross and nails are already prepared
[Incomprehensible]
My sell out waits till I'm crucified
I will die before my vision ends

Why am I born, will I fail to rise again?
Another crucifixion for another holy war
Another holy war, another holy war
Another holy war, can't stop what's going on

Wait for the dawn to take me away
What will be if I fail another golden calve
Never, never ending pain and agony
Hit me, nail me make me God

Why am I born, will I fall to rise again?
Another crucifixion for another holy war
Another holy war, another holy war
Another holy war, can't stop what's going on

Why am I born, will I fall to rise again?
Another crucifixion for another holy war
Another holy war, another holy war

Another holy war, just can't stop what's going on
