A seed of doubt
It exists and it grows
A glimpse of life from somewhere deep within
Awake and understand

Is there anyone else here?
Somebody screaming, please help me
Find out now that I am not dreaming
Welcome to my damnation, here it comes the real me

I didn't know, I couldn't hear the answer
My mind was blank, I should have known
Hold it back but somehow
There is someone else, another stranger me, another
stranger me

That's when the ice will break away

I can't get out here, anymore
'Cause none of my keys fit the door
There's fear and anger, hate and love
I must confess, it's out of hand

It's cynic, it's cynic
Still cynic, all my laughter
It's cynic, just manic
It's cynic, all her laughter

If there's anyone in, it soon will be over
We'll burn out, soul's aflame
We're on our own now, give up you cruel invasion
You're insane, I'll show you

I didn't know, I couldn't hear the answer
My mind was blank, I should have known
Hold it back but somehow
There is someone else, another stranger me

Out and gone, can't resist
Cold and sore, the bolt of pain
Keeps ripping through my head
I can take no more

Don't tell anyone else but I do not believe her
She hates me, cloud my mind
She's a deceiver, I can feel cruel vibrations
Would you like to meet me?

I didn't know, I couldn't hear the answer
My mind was blank, I should have known
Hold it back but somehow
There is someone else, another stranger me

Another stranger me
