Follow the blind
Your journey, your last hope, it can begin
These passing dreams were real no fantasy
There are more things than we know
Come take my hand

Searching for the talisman
You'll find it on another plane
Far from all time, maybe you wonder
While you see the same faces everywhere
You can find yourself in it, 'cause you're a part

I'm another
Strange my feelings
Where am I here
For a short time
I remember I had been here

I'm alone, follow me
Calling you, follow me
I'm alone, follow me
Follow the blind

Follow me
Follow me, it's my time
Follow me
Follow the blind

Wandering in my darkest dreams
Iron shadows are lurking at me
In this desert
The tyrant's calling

On the run to save my love
She's full of pain
The queen is lying far behind
In an endless dream

Before I thought I was dreaming
A strange voice whispers in my ears
You're the rat in the trap
Return or pain will come to you

I'm alone, follow me
Calling you, follow me
I'm alone, follow me
Follow the blind

Follow me
Follow me, it's my time
Follow me
Follow the blind, no
