Dead girl:

Please, sister, wake me up  
You've traveled far  
Release my mind  
Sing this song of mine  
Save me from drowning  
Quick, cast your spell on me  
I sense you're finally getting near  
Can you hear me crying?  
I've got to break the silence

The lover:

I know they're out there  
Play hide and seek  
Watching  
My love is wasted

The storyteller:

My worst dreams  
I can't leave them  
I'm the black queen  
Here in barren lands

The fox:

When you walk down  
You may not find relief  
Will you go down there?  
I wonder  
Wonder why

All:

Here on this road of no release  
Pale reign of misery  
That even time cannot erase  
On through my sorrows  
Life will go on

Dead girl:

Words and dreams unite  
I hear an ancient voice  
It's calling for me  
When death and life collide

I hear an ancient song

The resurrected girl:  
Deep inside  
I can't find myself  
Can't remember at all  
The past and my strange end

Come guide me now  
Can't remember my fall  
There's something  
There's someone  
It ain't over now  
The void - there's more to it  
It's real and still alive

The necromancer:  
I will find you  
Slipping away  
I'll bind you  
Still I conquer the world  
Take him away

All:  
Here on this road of no release  
Pale reign of misery  
That even time cannot erase  
On through my sorrows  
Life will go on

The fox:  
My last steps  
Can't leave her  
I, the old fox  
Will take revenge

Old man:  
I cannot heal your fear and doubts  
The void, it waits for us  
Still, after all the ghosts are howling  
You cannot run, you cannot hide  
The void, it waits for us  
Still after all here is no choice

All:  
Here on this road of no release  
Pale reign of misery  
That even time cannot erase  
On through my sorrows  
Life will go on

The girl:  
Find me, I'm drowning  
Then once again  
There's nothing left I fear  
There's nothing more to say  
And no more games to play  
To play
