Music: Olbrich/Kursch

Lyrics: Kursch

So let me out of it

Out of the cold

To bring back light and hope for all

And so if I could get you in

Just for a little while

Into the song of sorrow

You might understand

Where am I know

Beyond the dawn

(Where) hope's turned to dust

At all

Immortal love's

Fooled by the hands of doom

That love means death

I realized too soon

CHORUS

Caught in the afterlife

I've gone too far

When sorrow sang softly and sweet

The air was filled with tears

Full of sadness and grief

When sorrow sang softly and sweet

I feel like screaming

But I can't breath in

Shall I wane right now

I will not leave this

World of living

Till she said

Goodbye

Out in the cold

I still wait for her call

And her last kiss

It shall be release

I can't forget her

Her face will not leave

From the depths of my soul

I long for her

CHORUS

So I heard all about it

Her voice's so clear  
She's woven both themes in there  
Moved me to tears  
The world shall hear this sad song  
Song of sorrow song of grief  
Can't change the way of his kind  
Can't change the way of her kind  
CHORUS
