"We Will Walk Through Walls"

Visit "[We Will Walk Through Walls](#)" on MotoLyrics.com

So you've found your stopping grounds
Make a fist and tear 'em down
Wash your face get all the blood
Off there your teeth and make them run
You were made to take it down
Change of heart girl sleep it off
Find the holes and patch them up
Time is on girl change the locks

We will walk through walls
Yeah, we'll walk through walls this way

Count the cracks across your face
Squint your eyes pretend they're gone
Change of heart go mow the lawn
These tiny fists can't save the world

You were made to take you down
Change of heart girl sleep it off
When you clown you're bound to fail
What goes up just goes away

We will walk through walls, my dear
I promise you
We will walk through walls, my dear
I promise you
We will walk through walls, my dear
I promise you
And we will walk through walls, my dear
I promise you
