You wanna go where the badgers go
You wanna see what my love can be
Now your begging on your knees
Little child, Little sister
Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love
You wanna go where the mighty hurt
Feel my hand moving up your skirt
Now your getting kinda high
Little mama, little darling
Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love
Turn those machines back on
Turn those machines back on
Turn those machines back on
Turn those machines back on
Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love
