Every day she gets by
It's just another day closer to the day she die
The day is passing her by
And the night is just a sequence of her heavy cries

Heavy woman
[Ah!]
Heavy woman
When she turns around
Tremors where she stood on the ground
And I promise you you never heard a sound like the
sound
Of heavy woman thighs

She don't see no reason why
That a man can't get a horn with the heavy life
Don't she know she don't fly?
She just keeps on shooting butter from her butter knife

Heavy woman
[Ah!]
Heavy woman
When she sat on the ?
On the floor it snapped
And I promise you you never want to find yourself
trapped
In heavy woman thighs

Ooh!

Heaviness never lies
And heavy dreams lay beneath her heavy eyes
Yeah she was once a little girl
But somewhere down the line she fell into a heavy
world
Yeah

Heavy woman
[Ah!]
Heavy woman
When she leans down
You can feel it in a neighbouring town

Then the scientists might think that it will affect the
tides
When heavy woman dies
