I've realised I'm on my own
It doesn't hurt to be alone
Sleeping day and night to find
That it would all be so...

I take a walk to kill some time
But in the back of my mind
I keep going over and over again

And it's always the same
It always gets you that way
And it's always the same
Like it always was before
And it's always...

I've realised I'm on my own
It doesn't hurt to be alone
Sleeping day and night to find
That it would all be so...

I take a walk to kill some time
But in the back of my mind
I keep going over and over again

And it's always the same
It always gets you that way
And it's always the same
Like it always was before
And it's always...

I've realised I'm on my own
It doesn't hurt to be alone
