"Stay Where You Are"

Visit "[Stay Where You Are](#)" on MotoLyrics.com

It never found it so hard to keep from falling asleep
It isnt all that good forgetting where you are
I find myself in quiet places surrounded by the sound
of the air
I know Im leaving I want to be there again

Take some time to work it out
You need more than I have got
Dont change your mind
If you wont stay where you are then dont stray too far
And Id give you all of this but it isnt mine to give
It isnt mine to give

I never found it so hard to keep from falling asleep
It isnt all that good forgetting where you are
I find myself in a quiet place surrounded by a sound in
the air
I know Im leaving I want to be there again

Take some time to work it out
You need more than I have got
Dont change your mind
If you wont stay where you are then dont stray too far
And Id give you all of this but it isnt mine to give
No it isnt mine to give

If you won't stay where you are then dont stray too far
And I'd give you all of this but it isnt mine to give

If you wont stay where you are then dont stray too far
And I'd give you all of this but it isnt mine to give

You could find what you need miles away from me
Then youd never need to know how far I would go
And how little I have grown
