I try to put it over my shoulder  
But I've got too much to say  
And things just don't seem to come out right  
And I seem to have got it into my way

And I've got to live my life in my stride  
I've got to live my life in style in my stride  
I've got to, got to live my life in my stride  
I've got to live my life in style in my stride

I watch them try and move by and remember  
What somebody once said to me  
And as I dim the lights the calmness returns  
And I loose my train of thought again

And I've got to live my life in my stride  
I've got to live my life in style in my stride  
I've got to, got to live my life in my stride  
I've got to live my life in style in my stride

Does the grass look greener?  
Or have my eyes turned green?  
Dissatisfaction only leaves a taste inside my mouth

And I've got to live my life in my stride  
I've got to live my life in style in my stride  
I've got to, got to live my life in my stride  
I've got to live my life in style in my stride
