"The Sun Has Turned To Black"

Visit "[The Sun Has Turned To Black](#)" on MotoLyrics.com

The earth torn from its path by meteoric pass
Showered by debris
Continents crumble, our cities funeral pyres
Crash into the sea

The sun has turned to black
No turning back
They hide amongst the stars and wait

Reaper's shadow cast across the aftermath
We cannot escape
Everlasting night, return to pagan rites
The old ones rule supreme

The sun has turned to black
No turning back
They hide amongst the stars and wait

The earth torn from its path by meteoric pass
Showered by debris
Everlasting night, return to pagan rites
The old ones rule supreme

The sun has turned to black
No turning back
They hide amongst the stars and wait
