From ancient Yuggoth, black rays emit  
Evils narcotic cyclopean pits  
In dark babelian towers await  
Lie dreaming until the time will awake

What man has seen unknown Kadath  
Whose dreamy angles, confused and trapped  
Beyond the frozen waste you will find  
Hyperborean continent entombed from time

From ancient Yuggoth, black rays emit  
Evils narcotic cyclopean pits  
In dark babelian towers await  
Lie dreaming until the time will awake, yeah

Black chant mirrors the song of the stars  
Open the abyss dreamt from afar  
Abominations drawn to our dimension

Feed black desires, aid human ascension

Black chanting grows  
From caverns below  
Echo through time  
Reveal the sign

From ancient Yuggoth, black rays emit  
Evils narcotic cyclopean pits, yeah  
In dark babelian towers await  
Lie dreaming until the time will awake, yeah
