From ancient Yuggoth, black rays emit
Evils narcotic cyclopean pits
In dark babelian towers await
Lie dreaming until the time will awake
What man has seen unknown Kadath
Whose dreamy angles, confused and trapped
Beyond the frozen waste you will find
Hyperborean continent entombed from time
From ancient Yuggoth, black rays emit
Evils narcotic cyclopean pits
In dark babelian towers await
Lie dreaming until the time will awake, yeah
Black chant mirrors the song of the stars
Open the abyss dreamt from afar
Abominations drawn to our dimension
Feed black desires, aid human ascension
Black chanting grows
From caverns below
Echo through time
Reveal the sign
From ancient Yuggoth, black rays emit
Evils narcotic cyclopean pits, yeah
In dark babelian towers await
Lie dreaming until the time will awake, yeah
