Looking around all across the sea
Seems like there's someone out there waiting for me &
I'll run around just to find some place
That gives me more than just the same old pace

& I'll feel content to runaway
But I'll end up making the same mistake

I've been away to some far our place
Where you can drive & get some snow in your face but
It wasn't long before I could see
There's no one out there smiling back at me

Then I feel ashamed to runaway
Cos I should have stayed at home here anyway

(In this)
Hip city, I just wanna love you
Hip city, I just wanna need you
This city, I just don't want to let go
Hip city, lights are blazing
At night you're so amazing
Hold me down before I cause a scene...
Cos this's my hip city & that's where I wanna be

All around I see the pretty smiles
They've been around me for a long long while & I met a
Girl & she made me weak
In my heart & my hands & my feet
& we would run around through the busy streets
Cos we will be running through the busy streets

(Of this)
Hip city, I just wanna love you
Hip city, I just wanna need you
This city, I just don't want to let go
Hip city, lights are blazing
At night you're so amazing
Hold me down before I cause a scene...
Cos this's my hip city & that's where I wanna be
