"Studman"

Visit "[Studman](#)" on MotoLyrics.com

Could never recognize your face.
And then you went and took that away from me
Then you were gone without a trace, I might as well
have
Let you kill me
You see the guy is probably from outer space
Where ones like us are few
Rock & Roll, in his eyes, they can't see his disguise, I
Wouldn't say another one was quite the stud as he

Valenines, party chimes, girls outside stand in line, to
See the man and touch the hand that drives a white
Mercedes benz
I wouldn't say another one was quite the stud as he
Wish there was a way to understand the superstud J.C
You're a studman, yes you are
