Naomi Talks:

Ok, so you gotta girl.
You know you breakin my heart right now
Yea, alright

Heard you gotta girl but what she gotta do wit me
(What she gotta do wit me)
Yea she kinda hot but ain't got nothin on me
I got my eye on you
It's kinda cool that you can't keep your eyes off me
(I see you lookin)

I can guarantee that she gon have a problem with me
You'll see

What she don't know won't hurt her
She don't have to know about me (bout me)
There's no need
Don't tell her, baby
We can keep it a secret
Just between you and me
I got my eye on you

I'm the kinda girl that does the things your girl won't do
(You know you want it)
Why don't you come home cuz there's things I wanna
do to you
I got my eye on you
Call her, tell her that you won't be comin home til noon
(You better make that 2)

I can guarantee that she gon have a problem with me
You'll see

What she don't know won't hurt
She don't have to know about me (bout me)
There's no need
Don't tell her, baby
We can keep it a secret
Just between you and me
I got my eye on you

Why do we always want what we can't have
Why does it feel so good when we're being bad
Can you tell me
How can did you and me
Get into this in the first place, ohhh
[Rap]
Can't help myself
I had to try ya
You're the flame that turned into a fire
To each other
But don't have to lie
She don't find out
And she won't have to cry
About our action
Our attraction
And all those long nights full of passion
Worry yoself to death
What fo
She ain't gotta know
We can keep it on the low

What she don't know won't hurt her
She don't have to know about me (bout me)
There's no need
Don't tell her, baby
We can keep it a secret
Just between you and me
I got my eye on you

What she don't know won't hurt her
She don't have to know about me
There's no need to tell her, baby
We can keep it a secret
Just between you and me
I got my eye on you

Why do we always want what we can't have
Why does it feel so good when we're being bad
Can you tell me
How did you and me
Get into this in the first place, ohhh

What she don't know won't hurt her
She don't have to know about me (bout me)
There's no need to tell her, baby
We can keep it a secret
Just between you and me
I got my eye on you
