I want to shake hands with my partner and ask him how  
come he's here  
I want to shake hands with my partner, ask him how  
come he's here  
I had a wreck with my family, they're gonna send me to  
the electric chair

I wonder why they electrocute a man at the one o'clock  
hour of night  
And I wonder why they electrocute a man at the one  
o'clock hour of night  
Because the current is much stronger, when the folks  
has turned out all the lights

I sat in the electrocutin' room, my arms folded up and  
cryin'  
I sat in the electrocutin' room, my arms folded up and  
cryin'  
And my baby asked the question, was they gonna  
electrocute that man of mine?

Lemon, get me a taxi to take me away from here  
Lemon, get me a taxi to take me all away from here  
I haven't had a good friend in this world, since they  
lead Lemon to the electric chair

I feel like jumpin' in the ocean, I feel like jumpin' in the  
deep blue sea  
I feel like jumpin' in the ocean, and like jumpin' into the  
deep blue sea  
But nothin' like that wrecked in my heart when they  
brought my electrocuted daddy to me
