She has a set of rules, she calls her own, to help her fight against their lies. - She knows a lot about them, but she is quiet; some people deserve to believe their lies. - Bugs, the transformation begun: Mrs. Warner had her two eyeballs surgically bugs removed and replaced with rotten eggs, providing her x-ray night vision. Then she was repeatedly beaten by all the hospital staff for years, until the government signed a special peace treaty with all surrounding countries. She was then having a bad day, due to the installation of a new operating system, based on chaos bugs logarithmics. It then crashed because o? bugs % F the peanut butter versus strawberry jelly toast and milk virus, affecting the already insufficient memory. Her bugs bionic arms and legs were now frozen, and her costume was ready. She was going out for shopping when the cops and the CIA came into her room and again she was raped for years. In the end, thanks to her superpowers, she bugs was able to seek re
