Inside my imagination  
There is an imitation of life  
You captured me for an instant  
Still in your camera and in your life  
The head of a hungry pack of hounds  
Will track me down  
Say it's not over  
Let's say a prayer  
Let's turn it over  
Show that we care.  
Walk in the desert  
Lie in the shade  
We'll be together  
Don't be afraid.  
Say it's not over.  
I'll move to the other side of town  
I'll lead you to the underground  
We'll live within our hollow space  
We're in a dream we both embrace  
And if tomorrow is undone  
You'll never hear me  
Say it's not over  
Let's say a prayer  
Let's turn it over  
Show that we care.  
Walk in the desert  
Lie in the shade  
We'll be together  
Don't be afraid.  
Say it's not over.  
Say it's not over.  
Say it's not over.  
Say it's not over.  
Inside my imagination  
There is an imitation of life  
You captured me for an instant  
Still in your camera and in your life  
The head of a hungry pack of hounds  
Will track me down
