Please let me in cause my house is falling down
There's trouble all over the
Town Let me begin And I'll tell you a story, how Dracula
hunted me down show me
That you care and of my presence you are aware we
don't need to shout or make a
Fuss we are devout Well I'd like to make a call to my kid
and I'd show him all
The things that I did Well I'd show him all the things
that I did show him all
The things that I did Some people always come late
others arrive in a dreadful
State I didn't get there at all the gun's in the holster
and it's too small
Who's that outside my door the house is falling in it's
world war again who's
That outside my door who's that outside my door Well
I'd like to make a call to
My kid and I'd show him all the things that I did We'll
show him all the things
That I did show him all the things that I did The head of
state gave up his
Crown.
