Please let me in cause my house is falling down
There's trouble all over the town Let me begin And I'll
tell you a story, how Dracula hunted me down show me
that you care and of my presence you are aware we
don't need to shout or make a fuss we are devout Well
I'd like to make a call to my kid and I'd show him all the
things that I did Well I'd show him all the things that I
did show him all the things that I did Some people
always come late others arrive in a dreadful state I
didn't get there at all the gun's in the holster and it's
too small Who's that outside my door the house is
falling in it's world war again who's that outside my
door who's that outside my door Well I'd like to make a
call to my kid and I'd show him all the things that I did
We'll show him all the things that I did show him all the
things that I did The head of state gave up his crown.
