Champagne lovers on a TV screen
Say goodbye to your mother 'cause she'd never believe
ya
I might have been wrong but she must've been easy
I never saw it coming but I'm messin' with my best
friends girl

Devastated coming down on novocaine
Goin' up goin' down and coming up again
Now your married to the movies like it's all insane
I never saw it coming but I'm messing with my best
friends girl
I'm messing with my best friends girl
I'm messing with my best friends girl
I'm messing with my best friends, yeah with my best
friends girl

My lipsticks runnin' and I look like I'm bleeding
Got to love one another what a wonderful feelin'
I know I've got a habit and I want you to feed it
I never saw it coming but I'm messing with my best
friends girl
I'm messing with my best friends girl
I'm messing with my best friends girl
I'm messing with my best friends, yeah with my best
friends girl

I know I want you and I know that it could be
Because it is inevitable it doesn't mean it should be
Jump, jump, jump, jump, jump, jump, jump, jump
Time, one time, come on, with me, this time your mine
so don't you see
That you get what you get what you double you double
I'm messing with my best friends girl

I never saw it coming but I'm messing with my best
friends girl
I'm messing with my best friends girl
I'm messing with my best friends girl
I'm messing with my best friends, yeah with my best
friends girl
