You don't want me
But I don't care
I'm independent, when (and) there's no one there
I'm not a substitute and it's wearing thin
Why can't you see that I won't give in
There's a rumor
How can it be true
The way that people talk
It's as if they knew
(but if they only knew)
And thought I try
I hope you understand
If I'm alone with you
It could get out of hand
Please don't make me wait
In front of you
Love comes too late
We're in a spin
Confused within
It must be fate
Love comes too late
Love comes too late

I believe it was meant to be
But when you threw me out
I guess it made me see
It could be a drag
>From my point of view
But that's the kind of thing
That I expect from you
What can I do I'll never be the same
Another day without you
Would drive me insane
It's a real life drama
That I can't work out
Don't think about it
Let me take you out
Please don't make me wait
In front of you
Love comes too late
We're in a spin
Confused within

It must be fate
Love comes too late
Love comes too late
