Can we meet on the street
Maybe tomorrow
See the world at our feet
Naked and hollow
I'll lead the climb crystal and fine
For you to see
With every step that I take
Every rule that you make
Stay with me
In this foreign land
Just long enough for me
To make you understand
You could be
My guiding light
The darkest of them all
You'd be the rise before my fall
And yet we both get along fine
Better than most
Some of the time
When I'm with you
I am on fire
You are the fuel
And my desire
Can we meet on the street
Maybe tomorrow
See the world at our feet
Naked and hollow
I'll lead the climb crystal and fine
For you to see
With every step that I take
Every rule that you make
Why do you bring
What I can't possess
You always ask for more
Until there's nothing left
These hollow words
Make a wrong arrest
They beat upon my door
A spirit haunts it for ever more
But I still hope
And sometimes I pray
It won't be hard

We'll find a way
Color my dream
Show me I'm real
Turn on the light
Then let me feel
Can we meet on the street
Maybe tomorrow
See the world at our feet
Naked and hollow
I'll lead the climb crystal and fine
For you to see
With every step that I take
Every rule that you make
