MISFIT

Picked a girl up at the trainstop where I live  
Took a drive along the beach by the ocean  
Talk about the dreams we had while we were growing  
old  
Wrote a poem on the back of your shoulder

Chorus

Tell me your name, tell me your story  
Cause I'm into it, runnin' through life like a misfit

I will start again

Give the dog a bone to chew as I drive around  
Wrote this song last night while I was sober

Chorus

Tell me your name, tell me a story  
Cause I'm into it, runnin' through life like a misfit

And I kept on driving  
I will start again

Chorus

Tell me your name, tell me a story  
Cause I'm into it, runnin' through life like a misfit  
BOKKIE

Jumping with your eyes closed, Landing on the sun  
Being young and beautiful, In love with no one  
But yourself

Chorus

And people tell you you're pretty yeah  
Your smile drives them crazy lady  
You wanna slowly fade away, but you can't, So you stay

Playing for the public, Making them love you

You're so cruel

Chorus

And people tell you you're pretty yeah  
Your smile drives them crazy lady  
You wanna slowly fade away, but you can't  
So you stay with me, with me, Bokkie

I'm on an island for two

Chorus

And people tell tell you you're pretty yeah  
Your smile drives them crazy lady  
You wanna slowly fade away, but you can't  
So you stay with me TONIGHT LET'S DANCE  
She was wearing her favorite dress  
She was waving a blue handkerchief  
She was laughing aloud in the corner of the room  
But she was dancing alone

Chorus

So I walked up to her, grabbed her arms to show the  
world  
Tonight we'll dance like we're in love

She was standing beneath the chandelier  
I offered her chocolate and some beer  
She said no, I said why, she said no, I said why  
And stayed dancing alone

Chorus

So I walked up to her, grabbed her arms to show the  
world  
Tonight we'll dance like we're in love

I look down on her  
She looks up at me  
All I want is all her love  
All I want is all her love

Chorus

Tonight we'll dance  
Tonight we'll dance  
Tonight we'll dance  
All night long like we were in love STATIC ON CHANNEL

Moon and stars above us shine  
Everybody knows you're mine  
Static on the channel 4  
Television radio, hold me close when you are cold  
Now I've got to get us home, everybody knows you're  
stoned

Chorus

And when you hear me calling  
You will turn away and see me standing there  
Waving my old colors, lifting up my arms  
And you will understand

Kiss me on the lips again  
Millions are just tuning in  
Sattelites begin to spin  
Listen close and let me in

Chorus

And when you hear me calling  
You will turn around and see me standing there  
Waving my old colors, lifting up my arms  
And you will understand

You will understand SUNLIGHT MAKES ME FEEL  
PARANOID

The sunlight's making me feel paranoid  
I look outside and see the world at war  
The people walk to work like they're alone  
I sit in silence staring at the phone

Chorus

And it helps me breathe, And it helps me see

I cover up my eyes to block the light  
I cover up my eyes and try to fight, the fall

Chorus

And it helps, When I come down, And it helps

The sunlight's making me feel paranoid  
I look outside and see the world at war  
The people laugh and play like they're alone  
They're watching us while we sleep in our homes  
I never, I never meant to shut you out  
All I know and all I need is you  
I never, I never meant to cause alarm

All I know and all I need and all I got is gonna bleed

Chorus

It helps, when I come down, It helps, when I come down

It helps me breathe, When I come down

ANNIE

The smell of the ocean on her skin

The rags of her dress blowing in the wind

A chorus of angels on the boardwalk

They know what you did in the dark

Chorus

I never meant to hurt you Annie

Leave you standing with the gun

Come and play with me little Annie

Lose yourself, lose yourself

I lay her back on the cold sand

And wipe the blood from her hand

I fix her hair and kiss her chest

The secrets die in her breathe

Chorus

I never meant to hurt you Annie

Leave you standing with the gun

Come and play with me little Annie

Lose yourself, lose yourself

Oh no, her hands are cold

Oh no, I played with her soul

All night again

I'm alone LOVE

I want the girl all dressed in white

She turns and says hello

She changes colors like a bird

I grab her wings and fly away

She takes me high and leaves me there

I never want that down

Chorus

Love, It's a beautiful place, It's a beautiful taste

Where I am now, where I am now, And I belong

The gentle high is all to blame

I cried for seven days

I feel myself losing control

To all the voices in my soul  
There is the girl in white again  
I need the sugar from her hand

Chorus

Love, It's a beautiful place, It's a beautiful taste  
Where I am now, where I am now, And I belong

And it's such a wonderful way, We're making love right  
now  
And it's such a wonderful way, you feel me up inside

Chorus

Love, It's a beautiful place, It's a beautiful taste  
Where I am now, where I am now, And I belong ESTER  
Ester why do you look all blue  
What did I say to you to make you feel all blue  
Ester when you walk in the room  
everybody turns to look at you

Chorus

And that night when I called you  
I was being young  
And the way I tried to win you  
I was being young, I was being young

Ester why can't you talk to me  
Why can't you look at me  
Why can't sit with me  
Ester with your lips all full  
With your heart all full, is there room for two

Chorus

And that night when I called you  
I was being young  
And the way I tried to win you  
I was being young, I was being young
