Chemicals down and I'm lost to the back beat
At a party feelin that freak heat, up
Coming up like the temperature's rising
Starting to sweat 'cause there's something inside
Goin' down and I'm feeling like the alien's in my head
but nobody said
The truth is out there just what is that
'cause I ain't got a piece of that action yet

Cos I'm on a world with the chocolate trees
I'm on a world with the lemonade seas
Cos I'm on a world with the candy floss skies
And I'm on a world where the aliens get high

Chemicals down and I'm losing my headspace
I could swim if they'd let me in the race
But I'm not and I'm never gonna get there
'cause they don't let my kind of people in yet
Beauty is only skin deep
So how come I feel like it's going off inside of me
I want to get out, I want to be free
From the trip of this renegade reality

Cos I'm on a world with the chocolate trees
I'm on a world with the lemonade seas
Cos I'm on a world with the candy floss skies
And I'm on a world where the aliens get high

So take me away on a flying saucer, come on you know
you wanna

Cos I'm on a world with the chocolate trees
I'm on a world with the lemonade seas
Cos I'm on a world with the candy floss skies
And I'm on a world where the aliens get high
