Life ain't so shitty  
There's a lot that you can be  
And ain't it a pity  
But it's alright, to smile back at me  
And if we both go there  
We can count on problems that we might not  
necessarily  
Come in contact with..  
Hey wake up, do you know where I'm coming' from

And life ain't so shitty  
There's a lot that you can be  
And ain't it a pity  
But it's alright, to smile back at me  
And if we both go there  
We can count on problems that I might not necessarily  
Come in contact with if you don't know where I'm  
coming' from
