"Hard To Handle"

Visit "[Hard To Handle](#)" on MotoLyrics.com

Feel the speed in which the world is turning
Take a look and you will see it burning
Understand, the time is running out
For every second and step we take
Are we still making the same mistakes
Do you know, it's getting hard to handle
CHORUS

Why can't you understand
The world is turning faster
And if we want to make a change
Then it's time to stop it all
Development is all that counts
Money, profit and amount
Understand, it's getting out of control
So take a look at our society
Computer controlled technology
Can't you see, it's getting hard to handle
REPEAT CHORUS

Is it so hard to understand, that we are
Running around in circles
I'd like to know
Is it so hard to understand, that we are
Running around in circles
REPEAT CHORUS
