This cruel game, my whole life you have played  
Still tears you shed  
Don't lie to me, don't lie to me  
All these years, our friendship you faked  
Freely this way  
Now there's no absolution

This pleasure you've freely taken  
Unashamedly all forsaken, lies

No code no honour  
A deadly disguise full of false intentions  
No code no honour  
Surrounded by lies see that look in your eyes

For too many years, secrets undisclosed  
Sharing with others than me  
Was it all for nothing  
You're engaged, in a world of intrigue  
I sense apprehension  
With no real solution

A mystery tour of pleasure  
The ending unknown if ever, why!

No code no honour  
A deadly disguise full of false intentions  
No code no honour  
Surrounded by lies see that look in your eyes

No code no honour  
Secrecy wrapped in a strange dimension  
No code no honour  
A bond without trust, is living a lie

An alliance we made, our friendship was real  
Commitments to last forever
