So took that sir T (?)  
I cut down a tree  
No ones a possum to me  
In the summer summer summer time  
A castrophy  
That's left up to me  
Last minute packing for  
The summer summer summer time  
We'll get up to 2  
And maybe have a brew  
Or 2 i'm living in  
The summer summer summer time  
We stopped in Whangarei  
And now we're on our way  
I brought some jandals for  
The summer summer summer time  
Playing cricket with a baseball bat  
Some other summer time  
Playing guitar when the sun has set  
Some other summer time  
If i admit we can sit in moonlit  
Some other summer time  
Your my crew and i will not forget it  
Beneath this canopy  
My splendid company  
Slipp into your jeans  
It's summer summer summer time  
The symphony  
You got the harmony  
You sat next to me  
In summer summer summer time  
Electricity  
My hand on your knee  
'got no need for tv  
Summer summer summer time  
And if you walk with me  
I think that you may see  
My heart is trembling  
It is summer summer summer time  
Playing cricket with a baseball bat  
Some other summer time
