You know I stayed up all night
In the dimmest light
Everyone else was outta sight
I had so much to confide to your heart
And you know well it seemed so wide
I can't see you
But I know you're there inside
While I'm standing outside
And you know to you I have never lied

I opened my eyes
And there he was
Your face shining above
I opened my eyes
And there he was
Your face shining above

You know I stayed up all night
In the dimmest light
Everyone else was outta sight
I had so much to confide to your heart
And you know well it seemed so wide
I can't see you
But I know you're there inside
While I'm standing here outside
And you know to you I have never lied

I opened my eyes
And there he was
Your face shining above
I opened my eyes
And there he was
Your face shining above

Now it's time to close my eyes
Finally kiss the stars goodnight
Now it's time to close my eyes
Finally kiss the stars goodnight
Tomorrow when the sun comes up
You'll be there smiling in the light
Now it's time to close my eyes

Finally kiss the stars goodnight
Yes it's time to say goodnight

When it gets real dark
And when I am alone
Something starts to glow
Inside me
