Catch a ride to our hang-out  
Don't stay outside, it's much nice in here  
I heard the news you were home  
And I just gotta see you once more  
But the silence is shocking  
I'm knocking, locking up, your heart was so near  
I almost didn't know you

Springtime left you all on your own but still all alone  
You are marvelous, you're the one I always did adore  
This time left you all on your won but still all alone  
You are marvelous, you are the one I do adore

Determine who you wanna be  
And promise yourself that you'll be true

Determine who you wanna be  
Promise yourself that you'll be true  
Determine who you wanna be  
And promise yourself that you'll be true

Sitting quiet we're talking,  
I'm walking circles all around my head  
And turning pages of notes  
I knew you still had it in you  
You're the person we're missing, still wishing  
That you saw what we see in you  
I wish you knew it was true  
You're perfect in all you do
