Your not punk, and im telling everyone!
save your breath, i never was one
you would know what im all about
dirty cops and greedy catalac
enemies are all too familiar
they are the ones who used to call me friend

I got a rip outside your guidlines of passing out,
you were passing out the rules.
one two three four, whos plus whats the score?

I got a friend, her name is boxcar!
cigarettes and beer in outside
and now its blue, but now its green
i loved her how she makes the scene
enemies are all too familiar
they are the ones that used to call me friend

I got a rip outside your guidlines of passing out,
you were passing out the rules
one two three four, whos plus whats the score?

one two, one two three four
your on your own,
your on your own
your all alone
your on your own,
your on your own
your all alone
your on your own,
your on your own
your all alone
your on your own,
your on your own
your all alone
