Said we high time for a holiday  
Turns out I think too much  
Such precious things don't go away  
And I will wait my love

Said we good time for a holiday  
Turns out I work too much  
Such precious things don't go away  
And I will wait my love

You are, my shining star  
You are, my Caviar  
You are, you are my tonic  
Lets get on it lady

She said the things I have heard of you  
Imply you're misbehaved  
So true till you walked in the room  
In time to save the day

You are, my shining star  
You are, my Caviar  
You are, you are my tonic  
Lets get on it lady

I'm sure you've heard such things form boys before  
You're beautiful, incomparable  
To anyone I may, have had before  
Lets stay together  
I know you've had dishonest boys before  
Been compromised they let you fall  
And all I gotta say is that was yesterday  
Grow old together

And for the record I won't let this slip away  
After all that we've been through  
I'll do all I have got to  
Of course I'll wait for you
