### "Aeons Past"

Contracted fate in revision  
Impede chaos determining  
Cognitive travel to transform  
Renovate ill-transgression

Universe of fractal events  
Reverse cellular preimage  
Computation through persistence  
Reasons misled by aversion

The effect of alteration  
Affects future stabilization

Continuum in fluctuation  
Matter for detonation

Vitality of creation

Collapses by our influence  
Solace gives way to agitation  
Anxiety alleviates existence

Contracted fate in revision  
Impede chaos determining  
Cognitive travel to transform  
Renovate ill-transgression

Universe of fractal events  
Reverse cellular preimage  
Computation through persistence  
Reasons misled by aversion
