## "A Galaxy Apart"

Visit "[A Galaxy Apart](#)" on MotoLyrics.com

You know, I stayed up all night  
In the dimmest light  
Everyone else was outta sight at

I had so much to confide to your heart  
And you know well it seemed so wide  
I can't see you

But I know you're there inside  
While I'm standing outside  
And you know to you I have never

But I know you're there inside  
While I'm standing outside  
And you know to you I have never lied

I opened my eyes  
And there he was  
Your face shining above

I opened my eyes  
And there he was  
Your face shining above

You know, I stayed up all night  
In the dimmest light  
Everyone else was outta sight at

I had so much to confide to your heart  
And you know well it seemed so wide  
I can't see you

But I know you're there inside  
While I'm standing here outside  
And you know to you I have never

But I know, you're there inside  
While I'm standing here outside  
And you know to you I have never lied

I opened my eyes  
And there he was

Your face shining above

I opened my eyes  
And there he was  
Your face shining above

Now it's time to close my eyes  
Finally kiss the stars goodnight  
Tomorrow when the sun comes up

And now it's time to close my eyes  
Finally kiss the stars goodnight  
Tomorrow when the sun comes up  
You'll be there smiling in the light

Now it's time to close my eyes  
Kiss the stars goodnight  
Yes, it's time to say goodnight

When it gets real dark  
And when I am alone  
When it gets real dark  
Something starts to glow inside me

When it gets real dark  
And when I am alone  
When it gets real dark  
Something starts to glow inside me  
It starts to glow inside of me
