"Fade Away"

Cut and dry, I look into your eye and, oh
Make sure that I'm breathing
Tell my heart to keep still
It's all that I feel inside

Branded by the image of a face inside
And I can't help but want to drift away all in a daze

Contently intense to memorize your lines
Make sure that I'm breathing
Tell my heart to keep still
It's all that I feel inside

What would I do when second best
Leaves me still missing you

I fade away when words are superfluous
Catch some time to remind me of the way you feel
Fade away when words are superfluous
Catch some time to remind me of you

I've begun to find, to love you is to miss you
Miss you is to love you
How sweet it is to dance around underground
In endless possibilities

Haunted by a kiss, I wait to feel
Make sure that I'm breathing
Tell my heart to keep still
It's all that I feel inside

If we close our eyes at the same time
Do you think we'll meet in the sky?

I fade away when words are superfluous
Catch some time to remind me of the way you feel
Fade away when words are superfluous
Catch some time to remind me of you

I have to go
I have to go

I fade away when words are superfluous
Catch some time to remind me of the way you feel
Fade away when words are superfluous
Catch some time to remind me of the way you feel

Fade away when words are superfluous
Catch some time to remind me of the way you feel
Fade away when words are superfluous
Catch some time to remind me of you
