Sometimes it gets just so hard  
To realize what I'm doing  
Because I feel like I'm  
Sticking out so much but

You're still in my heart  
And on my mind  
You're always there to remind me

Sometimes I think that no one  
Could ever understand me  
But I forget that you've been where I am  
Many times

You're in my heart  
And on my mind  
You're always there to remind me  
Oh my heart can't understand  
How my mind can't feel  
When memories fade  
Are they still real

Oh my heart can't understand  
How my mind can't feel  
When memories fade  
Are they still real

In my heart  
And on my mind  
In my heart  
And on my mind  
In my heart  
And on my mind  
In my heart  
And on my mind  
In my heart  
And on my mind  
You're always there to remind me
