fell off the edge of night there  
it's raining all around  
the storm is forming around  
but still theres a calm inside me  
look left, look right, look straight now  
focus on divinity  
knock once, knock twice, now crash though

i need you, i want you, look into my eyes  
you're all you'll see inside  
i need you, i want you, there isnt any time that  
i'm better off without you  
say my name, yeah, say my name

fell off the edge of night there  
sometimes the mist falls perfectly  
no words can form to meaning  
thankful thunder breaks the silence  
one step in solitude  
down-town Bloomfield avenue  
flash bright, flash light, this breaking light

i need you, i want you, look into my eyes  
you're all you'll see inside  
i need you, i want you, there isnt any time that  
i'm better off without you  
say my name, yeah, say my name

you are the one, you are the one for,  
you, you, you, you are the one for me, you are the one.
