Scratch my eyes out for you
Strap dynamite to my side
Shed a carcass for you
I'll empty out my soul
I'm begging you just give me a chance
Stick with me and we'll see the rest
Oh I'm paralyzed

I'll carve your name here in my chest
Kill for you and nothing less
I'll burn alive no second thoughts
Just to hear your scratchy voice

Rain is falling from your face
Drink the rest it still remains on you
It feels so good it starts to hurt
Hurts so bad it starts to burn

I'll frame your eyes here on my wall
Feel your love when you are gone
It makes me sad when you are sad

I feel down when you are down
I'm begging you just give me a chance
Stick with me and we'll see the rest

Rain is falling from your face
Drink the rest it still remains on you
It feels so good it starts to hurt
Hurts so bad it starts to burn

Why would you ever change?
It's a mystery
Hell would finally come apart
You would hurt and see
You're the reason I came like I'm all worked up again

Rain is falling from your face
Drink the rest it still remains on you
It feels so good it starts to hurt
Hurts so bad it starts to burn
