Life ain't so shitty  
There's a lot that you can be  
And ain't it a pity  
But its alright to smile back at me  
And if we both go there  
We can count on problems that we might not  
necessarily  
Come in contact with,  
Hey wake up, do you know where I'm coming from  
Life ain't so shitty  
There's a lot that you can be  
And ain't it a pity  
But its alright to smile back at me  
And if we both go there  
We can count on problems that we might not  
necessarily  
Come in contact with do you know where I'm coming  
from
