As I shit, I sit and wonder why my floor is so cold and
my back broken tired
But life is good, even though it won't be long
With a candle comes emotions that dance with the
shadows on my wall

What were your thoughts, as they were flying through
your mind
Compared to what you feel from the bars you're now
behind
If they could speak, what do you think they would say to
you?
I do believe you'd been better off if you'd just told the
truth

Never had a problem till I stood face to face with me
And I wish there was a way for me to go inside so I
could see
All the faces of the people who have torn a piece of me
As I grew from a seed to a tree

Can you feel the power of the eye
That's hidden away five feet from where we lie
What do you taste, when you take a drink of me
Is it too much for me to ask if I asked you to leave
Oh, please just leave because I want to be alone

Ohh, I say alone

There's a fine line between love and my feelings for
you
High time I washed it all away
Unkind, I watch your future burn before you
Denied a chance of any love in your life
And I ask you one time, why, why?

Never had a problem till I stood face to face with me
And I wish there was a way for me to go inside so I
could see
All the faces of the people who have torn a piece of me
As I grew from a seed to a tree
